PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science Engineering student with strong knowledge of Java, HTML, CSS, JavaScript, MySQL, and full-stack development. Passionate about building responsive web applications and solving complex programming challenges through hands-on academic projects. Seeking to begin my career as a Java and full-stack developer, where I can apply my problem-solving skills and technical foundation in data analytics to real-world software solutions.

TECHNICAL SKILLS

- Programming Languages: Java, C, Python
- Frontend: HTML5, CSS3, JavaScript
- Backend: Spring Boot, Hibernate, Spring Data JPA, REST APIs
- Database: MySQL
- Tools & Technologies: Git, GitHub, Eclipse, VS Code
- Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability, Time Management, Quick Learning

PROJECTS

AI-Based Crop Disease Detection System (Full Stack)

Java, Spring Boot, MySQL, Machine Learning, HTML/CSS/JS

- Developed a full-stack web application using machine learning to help farmers identify crop diseases through leaf image analysis, with secure user authentication and MySQL-based data management.
- Delivered instant diagnosis, confidence scores, and treatment recommendations to support smart agriculture decision-making.
- Built a user-friendly dashboard with image upload and prediction tracking to enhance accessibility and improve agricultural productivity.

NeuroHMI: AI-Powered Industrial Monitoring System (Full Stack)

Java, Spring Boot, Spring Data JPA, Hibernate, MySQL, WebSocket

- Analyzed requirements and designed a real-time industrial monitoring platform using Spring Boot and REST APIs, with WebSocket-based live sensor streaming for anomaly detection and predictive maintenance analytics.
- Integrated MySQL, Hibernate, and Spring Data JPA to efficiently manage machine, alert, and sensor data, handling debugging and testing throughout the development lifecycle.

INTERNSHIP

Java Full Stack Developer Intern — EduSkills Academy

- Completed a 10-week Java Full Stack internship, gaining hands-on experience designing and developing responsive web applications with Java, Spring Boot, Hibernate, MySQL, HTML, CSS, and JavaScript.
- Worked with Java frameworks, database integration, and version control while following software development best practices.

EDUCATION

K.S. Rangasamy College of Technology

B.E. Computer Science and Engineering

CGPA: 7.54

Sep 2023 – May 2027

Government Boys Hr. Sec. School

Higher Secondary Education

Percentage: 81.1%

Jul 2022 – Mar 2023

ACHIEVEMENTS

Hackathons

- Participated in ASME Hackathon 2025, collaborating with a team to design and prototype an innovative software solution, strengthening problem-solving, teamwork, and rapid application development skills.
